## 9. Product Manage

- i) This page will be shown after clicking 'Product Manage' on the top bar. This page can be access only if the current user is admin.
- ii) By clicking 'Add' button, a new product will be created. (Click 'Reset' to change all field to default.) And the product list will be updated. The product will be shown in 'Product List' only if the product is valid.
- iii) By clicking 'Edit' button of the specific product, the page will redirect to the 'Edit Product' of the related product.
- iv) By clicking 'Valid it' or 'Invalid it' button of the specific product, the valid status of the related product can be changed.

The screenshot displays the 'Product Manage' web application interface. At the top, a navigation bar includes links for 'User Manage', 'Category Manage', 'Product Manage', 'Product List', and 'Order History'. The 'Product Manage' section is active, showing an 'Add New Product' form. The form includes fields for 'Category' (set to 'Mobiles'), 'Product Code' (with a warning: 'Product Code can't exceed 20 words'), 'Product Name', 'Description', 'Product Price' (set to 0, with a warning: 'The range must between 0 and 10000'), 'Image Path' (with a warning: 'Image Path can't exceed 20 words'), and a 'Valid' checkbox (checked). Below the form are 'Add' and 'Reset' buttons. The 'Product List' section below shows a list of products with a category filter on the left. The filter includes 'All', 'Mobiles', 'Laptop', 'Desktop', 'Jeans', and 'TShirt'. The product list contains three items: 'Mobile Phone' (1,000.00 CAD), 'Mobile2 Mobile Phone No.2' (888.00 CAD), and 'Desktop Desktop' (99,999.00 CAD). Each item has an 'Edit' button and a 'Valid' checkbox.
